#### CHEN HELENDS.

WANT OF SLEEP .- Oplum or morphine is usually prescribed as a soporific. Both are violent remedies, and react violently; producing nausea, headache, and prostration. They are often given when they are not needed; and not unfrequently they increase the irritation of the brain instead of soothing it. Probably in seventy-five cases out of a hundred in which they are administered, Plantation Bit TERS, given in moderate doses and at proper intervals, would have the desired effect. Persons who find it difficult to compose their minds to sleep after lying down at night, or whose slumbers are disturbed by bad dreams, or are too brief to afford due nourishment, are advised to try the Plantation BITTERS as an anodyne; for this comprehensive medicine is not only a tonic and alterative, but a delightful sedative-a "balm of hart minds" as well as a revivifier of enfeebled frames.

Its use, as a means of producing healthful sleep, involves none of the unpleasant secondary consequences of a resort to the former narcotics. They all, without exception, excite the stomach, while the effect of the Bitters is to tone, and without irritating that sensitive organ.

From North to South, giving a direct route from St. Paul to St. Louis.

The location of this line, through the richest and most thickly settled part of Iowa, assures to it a LOCAL TRAFFIC of great magnitude and unquestioned profit. Forming, as it does, the shortest and cheapest avenue of communication between the coal fields of Iowa and the lumber markets of Minnesota, it will also have its carrying facilities taxed to provide for the COAL AND LUMBER TRANS-PORTATION which the rapid settling of the country and the extension of the railroad system of the Northwest will combine to increase far beyond its

already large dimensions. In addition to these inevitable sources of profitable revenue, the CENTRAL RAILROAD OF IDWA will have peculiar advantages for ThR DUHH BUSI-NESS. It is not only the most natural outlet for the bulk of the Northwestern carrying trade, but some of its largest stockholders being identical with the principal owners of the various tailroads diverging from St. Paul and Duluth, the treight and passengers from the Lake Superior and Mississippi River, the St. Paul and Pacific, and the Northern Pacific Railroads will be mainly transferred to this line. Upon this railroad, thus favorably situated, there

To the small amount of \$16,000 per mile, which are offered at the low rate of 90 and occurred interest, in currency.

Nearly two and a half million dollars of these bonds have been sold, leaving about one million remaining, which are being rapidly taken by investors. The Company is composed of strong capitalists who have carried the work of construction rapidly forward, without being dependent upon the sale of the Bonds. The amount of money thus invested is a guarantee of the soundness of the Company's bonds.

A First Mortgage for so small an amount, upon a road so sure of large business, and in so strong hands, may well be considered a perfectly safe security. Holders of Government Bonds will find a decided advantage in exchanging them for Central Iowas, and realizing the increase of interest, beside the difference of exchange.

### NEW 7'36 GOLD LOAN

OF THE

# NORTHERN PACIFIC RAILROAD CO.,

SECURED BY FIRST MORTRAGE ON RAIL-ROAD AND LAND GRANT.

SAFE! PROFITABLE! PERMANENT!

We offer for sale at par and accrued interest the First Morigage Land Grant Gold Bonds of the Northern Pacific Fabroad Company. They are free from United States tax, and are issued of the following denominations: Coupons, \$100, \$500, and \$1000; kegistered, \$100, \$700, \$1000, \$2000, and \$10,000. With the same entire confidence with which we commended Government bonds to Capitalists and

commended Government bonds to Capitalists and Feople, we now, after the fullest investigation, recommend these Northern Pacific Railroad bonds to our friends and the general public.

OLD PAYMENT.—Both principal and interest ale payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principal at the end of 30 years, and the interest (at the rate of seven and three-tenths per cent. per annum) half-yearly, first of January and July.

PERFECT SAFETW—The bonds we are now a ling are secured by a first and only mortgage on s ling are secured by a first and only mortgage on all the property and rights of the Northern Pacific Bauroad Company, which will embrace on the com-pelition of the work:—

1. Over two thousand miles of road, with rolling

stock, buildings, and all other equipments.

2. Over twenty-two thousand acres of land to every mile of finished road. This land, agricultu-

every mile of finished road. This land, agricultural, tunbered, and mineral, amounting in all to more than fifty million acres, consists of alternate sections, reaching twenty to forty miles on even side of the track, and extending in a broad fertile belt from Wisconsin through the richest portions of Minnesots, Dakota, Montaha, Idaho, Oregon, and Washington to Puget Sound.

While the Government does not directly guarantee the bonds of the Road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great national improvement.

THE MORTGAGE.—The Trustees under the Mortgage are Messrs, Jay Cooke, of Philadelphia, and J. Edgar Thomson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interests of the First Mortgage bondholders, and are required to see that the proceeds of land sake are used in purchasing and canceling the bonds of the Company, if they can be bought before maturity at not more than 10 per cent. brught before maturity at not more than to percent, premium; otherwise the Trustees are to invest the proceeds of land sales in United States Bonds or Real Estate Mortgages for the further security of Northern Pacific bondholders. Also, that they have at all times in their control, as security, at least 500 acres of average 1and to every \$1000 of outstanding

first mortgage bonds, besides the rauroad itself and all its equipments and franchises. PROFTABLENESS —Of course nothing can be salor than the bonds of the United States, but as the Government is no longer a borrower, and as the Nation's present work is not that of preserving its existence, but that of DEVELOPING A CONTINENT, we remind those who desire to increase their income and obtain a more permanent investment, while still having a perfectly reliable security, that:— United States 5-28s at their average premium yield the present purchaser less than 5% per cent, gold interest. Should they be redeemed in five

years, and specte payments be resumed, they would really pay only 4% per cent, or if in three years, only 1% per cent, as the present premium would meanwhile be sunk.

Northern Facing 7 208 selling at par in currency Northern Facilic 1, 2008 setting at par in currency yield the investor 7.3-10 per cent, gold interest absolutely for thirty years free from United States 5.20. \$1100 currency invested now in United States 5.20. Will yield per year in gold, say \$92, \$1100 currency invested now in Northern Pacific 7.30s will yield per year in gold \$80.20. Here is a difference in annual income of nearly one-third, besides a difference of T to 10 near cent in principal when both classes of to le per cent, in principal, when both classes of bords are redeemed. THE KOAD NOW BUILDING.—Work was begun

in July last on the eastern portion of the line, and the money provided, by the sale to stockholders of some six nellions of the Company's bonds, to build and could the road from Lake Superior across Min-nesota to the Red River of the North-233 miles. The grading on this division is now well advanced, the from is being rapidly laid, several thousand men are at work on the line, and about the first of August full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end in early Spring, and thereafter the work will be pushed, both eastward and westward, with as much speed as may be conand westward, with as mach speed as may be consistent with saidily and a wise economy.

RECEIVABLE FOR LANDS.—These bonds will be at all times receivable, at 1:10, in payment for the Company's lands, at their lowest cash price.

BONDS EXCHANGEABLE.—The registered bonds can be exchanged at any time for compons, the compons for registered, and both these can be exchanged for these awable, uninclinal and the exchanged for others, payab'e, principal and interest, at any of the principal financial centres of Europe, in the coin of the various European countries.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our agents, who will allow the highest current price for all marketable securities.
Those living in localities remote from banks may send money, or other bonds, directly to us by express, and we will send back Northern Pacific bonds at our own risk, and without cost to the investor.
